

Sonia Kovalevsky High School Mathematics Day at LSU

May 8th, 2010

The Sonia Kovalevsky High School Mathematics Day is a day of activities including math workshops, talks, games, and competitions and it will take place in Lockett Hall, on the LSU campus. The events are free of charge.

The main goal of this activity is to encourage young women to continue their study of mathematics.

The program will be mainly aimed towards 10th and 11th grade students, but exceptional younger students are encouraged to apply.

The Deadline for submitting an application to participate is **March 29th, 2010.**

Application forms and more information can be found online:
