**David Forge\*** ([forge@lri.fr](mailto:forge@lri.fr)), Laboratoire De Recherche En Informatique, Bat 490 - Universite Paris Sud, 91405 Orsay Cedex, France. *Some combinatorics of Orlik-Solomon algebras.*

There are a lot of questions for the relations of the Orlik Solomon algebras to their defining matroid. We will give some very simple results for special cases like graphic or rank 3 matroids. We will also present a generalisation of Orlik-Solomon algebras. (Received January 22, 2003)
