980-55-310   **Ken Jewell*** (`jewell@edgewood.edu`), 1000 Edgewood College Drive, Madison, WI 53711. *A simplified CW-Complex with the Homotopy-Type of the Complement of a Complexified Real Hyperplane Arrangement.* Preliminary report.

Building upon a simplification of a simpliical complex with the homotopy type of the complement of a subspace arrangement described by Orlik [90], we'll examine what happens when you specialize to complexified real hyperplane arrangements. (Received August 21, 2002)
