Richard Randell* (randell@math.uiowa.edu), Department of Mathematics, University of Iowa, Iowa City, IA 52242. *Properties of arrangement groups*. Preliminary report.

We will discuss several mostly unsolved questions concerning the fundamental group of the complement of a complex hyperplane arrangement. The basic theme might be characterized as: To what extent is a general arrangement group like the pure braid group? (Received August 19, 2002)
