Course: Math 2058-01

Instructor: Jimmie Lawson
Department of Mathematics
Lockett 216

Office Hours: 1:40-2:30 MW, 9:30-11:30 T, or by appointment

Text Coverage: Chapters 12.6, 12.7, 14, 15, 16

Room and Time: Lockett 132, 12:40 MWF

Tests: There will be three unit tests given over the course of the semester, each worth 140 points. They will be given at the end of Section 14.6, 15.6, 16.3. There will also be a 300-point comprehensive final.

Homework: Comprehensive homework assignments will be handed out over each block. In addition credit homework assignments will be made on WEBWORK. These assignments are available at [http://webwork.math.lsu.edu/webwork/MATH2058-01/](http://webwork.math.lsu.edu/webwork/MATH2058-01/). Your login name is your last name with no capitals. Your password is your SSN (with the dashes included). Initially I have set it up so that you have unlimited tries on each problem.

Grades: Your homework scores, unit test scores, and final score will be added at the end of the semester.

Computer Homework: At least 2 points per problem (I may raise it for some harder problems later on). You will not be penalized for a small number of wrong answers, but may only get half-credit for a large number (to discourage getting answers just by guessing).

Unit Tests: 125-140(A), 110-124(B), 95-109(C), 80-94(D)
Final: 270-300(A), 240-269(B), 210-239(C), 180-209(D)

* I have to travel some, so my assistant George Cazacu will be filling in for me at the beginning (and any other absences). His office is 145.
