

Dear Reader,

Thank you for your interest in a possible postdoctoral position in the Department of Mathematics at Louisiana State University. All of our postdoctoral positions have now been filled. For reference, our most recent postdoctoral positions ad is below. You may check mathjobs.org for future openings in our department. Best of luck to you.

Sincerely,

Michael Malisoff

Roy P. Daniels Professor

Department of Mathematics

Louisiana State University

Postdoctoral Position at Louisiana State University

The Department of Mathematics at Louisiana State University invites applications for one or more Postdoctoral Researcher positions, beginning in August 2017. Applications are welcomed in any area of interest to the departmental faculty, including control and optimization; see <http://www.math.lsu.edu>. A required qualification is a Ph.D or an equivalent degree in mathematics, or in a related area. The department seeks candidates who have potential for research excellence, as well as a commitment to graduate and undergraduate education. Minorities and women are strongly encouraged to apply. Application review will begin upon receipt and applications will be accepted until candidates are selected. To apply, please go to <https://www.mathjobs.org/jobs/jobs/9626>.
