

# Applications of Automorphic Forms in Number Theory and Combinatorics

In honor of the lifelong work of

## Wen-Ching Winnie Li

- Distinguished Professor  
Pennsylvania State University
- Ho Chin Tui Chair Professor  
National Tsinghua University, Taiwan
- Chern Prize Recipient
- AMS Fellow
- Director  
National Center of Theoretical Sciences in Taiwan

### Plenary Speakers

Jean-Pierre Serre	Collège de France
John Tate	Harvard
George Andrews	Penn State
Kathrin Bringmann	Universität zu Köln
Ching-Li Chai	UPenn
Youngju Choie	POSTECH, Korea
Henri Darmon	McGill
Dorian Goldfeld	Columbia
Benedict Gross	Harvard
Jeffrey Lagarias	UMichigan
Kristin Lauter	Microsoft
Tong Liu	Purdue
Ram Murty	Queen's
Ken Ono	Emory
Ken Ribet	UC Berkeley
Peter Sarnak	Princeton
Shouwu Zhang	Princeton

### Organizers

Jerome Hoffman  
Ling Long  
Karl Mahlburg  
Jorge Morales  
Bogdan Oporowski  
Robert Perlis  
Holly Swisher

April 12–15, 2014

**LSU** Department of  
**Mathematics**

LOUISIANA STATE UNIVERSITY

Sponsored by  
Louisiana State University • National Science Foundation • Clay Mathematics Institute • Number Theory Foundation • Microsoft Research
